GRIMSTONE INC.

Who We Are

Grimstone Inc. is a paranormal research organization that has been serving the Great Lakes community for the past decade in providing investigations and educational seminars. We specialize in discrete, scientific investigations of private homes and businesses. Our staff has a passion for the paranormal which drives our pursuit for answers to the otherwise "unexplained". Our trained staff members come from all walks of life and sectors within the community, but we have one goal ... to provide you with assistance to your paranormal situations.

We use strict scientific methodology and principals in evaluating client's claims and provide them with in-depth investigations. This often incorporates the latest surveillance technology, field instrumentation, and theories. We are not thrill-seekers looking for a good chill by exploring your property. We are not trespassers who wish to disturb your home or your privacy. We are dedicated professionals which want to provide answers and comfort to our clientele. Grimstone Inc. offers partnership opportunities with other paranormal investigations facilities and individual researchers. It is by forming community partnerships that organizations are able to tap into a wider variety of resources improving precision, accuracy, and speed with their various projects.

Grimstone Inc. is a not-for-profit organization and there are no fees associated with our services.

Why Contact Grimstone Inc.?

If you feel your home or business is haunted, please feel free to contact us. Some symptoms of a haunting include:

- Unexplainable strange noises (tapping, footsteps, voices).
- Appliances or lights operating on their own.
- Doors or windows open or close on their own.
- Objects regularly disappearing or changing locations.
- Apparitions of people or moving shadows.
- Unusual pet behavior.

Then What?

Grimstone Inc will contact you for an in-depth interview. This interview will determine our next course of action.

If appropriate, an investigation will be scheduled at your convenience.

Several members of Grimstone Inc will come to your home at your convenience in the strictest of confidence and discretely perform the investigation utilizing the latest technology to attempt to determine your haunting.

The following will be used: Electromagnetic Field Detectors; Thermal Scanners; Infrared Thermometer; 16-channel Duplex Multiplexer, Real-Time Audio Analysis Equipment, 0 lux Video Surveillance Cameras, and digital and still photography.

Once the investigation is complete, members of Grimstone Inc. will examine the evidence by looking closely for a logical explanation, and report back to you with a complete written report of our findings including historical background information on the site. After the initial evaluation, additional investigations will be performed as needed and/or desired by the client.

If it is determined there is paranormal activity, Grimstone Inc. will offer you possible solutions and refer you to appropriate and qualified professionals. They may include:

- A Minister or Priest or Clergy
- Qualified Psychic
- A Professional Skilled with Purging Spirits

Paranormal is anything which seems to defy the known laws of science; is beyond scientific explanation; and/or beyond normal experience.
