

## Grimstone Inc. ABOUT Us

Grimstone Inc. is one of the longest continually running paranormal research organizations in the Midwest. Established in 1996, we are one of the leading organizations providing client services with our experienced investigators. Our main office is located in Warren, MI; however, we provide investigation services throughout Michigan and bordering areas. We work discreetly with clients, other investigation groups, and the local authorities in matters concerning the paranormal.

It is Grimstone Inc.'s mission to investigate and record legitimate paranormal occurrences, work professionally on an individual basis with its clients, and become a leading information resource on the supernatural for the general public. We do this through our formal investigative practices, continual improvements to our paranormal research methodologies, and our educational programs. Grimstone Inc. is committed to scientifically researching and documenting the paranormal.

We are a not-for-profit organization and do not charge for our services and research support. Our members are dedicated volunteers who are passionate for the paranormal, which drives our pursuit for answers to the otherwise "unexplained." We are devoted professionals wanting to provide answers and comfort to our clients.

## Grimstone Inc. SERVICES

Grimstone Inc. provides it's clients with free and discrete, scientific investigations of private homes and businesses. After receiving an investigation request, one of our members will contact you and conduct an interview. The interview will determine what resources are needed to best serve you. A lead investigator will then contact you to go over next steps.

### Investigation

The Investigation is a key element to Grimstone Inc.'s client services. During the Investigation, Grimstone staff will attempt to find evidence of a haunting using a variety of means. Throughout the process, we review your reported haunting symptoms and look for underline causes. We provide video and audio surveillance of the property in order to document paranormal events. Evidence review of an Investigation usually takes 3-4 weeks to complete due to the large amounts of data that must be analyzed. As data is reviewed, they are added to your case file. You can review this information on our Client Gateway.

### Education and Historical Preservation

Grimstone Inc. works with a number of historical properties that are actively haunted to help them maintain and restore their buildings. We do this by working with them to establish workshops, tours, or ghost hunts. We also provide presentations to the public about paranormal

research, true ghost stories, and other supernatural topics to increase awareness of what is occurring in the Great Lakes region.
